Don't bet on elections. Aside from the moral principle involved, it is foolish to gamble on a subject where your enthusiasm impairs your judgment. If your party wins there is joy enough in the victory; if your party loses, why give your opponents the double happiness of a party triumph and your money besides. Instead of risking your earnings on a wager, contribute what you can to the campaign fund.

The following note was picked up in the Richmond postoffice a few days ago: "Dear B—, the reason I didn't laugh when you luffed at me yesterday in the post-office was because I have a bile on my face, and can't laugh. For if I did it would hurt; but I love you, your sweet thing, bile or no bile, luff or no luff, you know that."—Richmond Register.

A Vassalloes girl fell out of a buggy and was all mused up. When she gave her fellow a story-stare and said: "You'd better get to Midway and learn how to take a girl out riding. Them boys let the girl drive and hold her in with both hands." The youth looked so ashamed that the horse blushed.

When did Adam marry and when did he marry her? One Eve. What was her bridal dress? Barely nothing. Not even a ribbon? No, she had no need of one; she was a ribbon herself. When Adam and Eve were in the garden, what time did they commence picking apples? In the fall. What was the first step they took in the sugar business? Bailing Cuba. While did not Cain make good sugar? Because he wasn't Abel. Who was the wisest man? Knower (Noah). What did he know? He knew enough to come in out of the rain.

QUEER, ISN'T IT?
Madam Hamor has gotten to be so daft upon the matrimonial question, that if a young lady gets a handsome wrap, or a dress, or if the interior of the house undergoes some changes, then is

whispered, "she is going to get married soon." Or if a single man or a widower smiles to a young lady on the opposite side of the street, or happens in her home to spend a few leisure hours then the old Madam, not taking the time to open the front gate, bounds over the fence, and with breath exhausted, tells the nearest neighbor that "Mr. Jones has actually called on Miss Smith and the wedding will take place in the near future," and then adds with a long breath, "but for goodness sake don't say I told you." That is about the way half of the gossip originates. If a fellow wants to "spark" a girl and hold her hand in his, that should not distribute any one, but the house cat on whose foot they may occasionally rock.

One is astonished nowadays to find a goodly portion of the women on the streets with their shoes laced with corset-strings in varying hues of red, white and blue. This silly fad originated with a member of the "four hundred" in New York, who happened to find herself short of shoe laces one morning and utilized a white corset-string in a moment of dire necessity. An intimate friend happened in unexpectedly that morning, and being of an observing turn, noticed the innovation and appeared on the streets next day with red laces in her shoes. From this foolish fashion started—Ea.

When thy daily toil is over, and the sun is going down, you are ready then to read the news that's going on in town. If you miss the weekly paper, here's a hint, 'twill make you smile; perhaps you'll find it on your daughter, for the bustle's back in style. When you wash your face in soap suds and you're looking for a towel, while the soap is in your eyes and you start to swear and howl; wipe your face upon your sleeve and remember all the while, that the towel is back in style. Now there's no use getting angry and it does no good to swear, if your Sunday shirt is missing and you're nothing new to wear; try your hardest to look pleasant, do your best to wear a smile, and remember when you miss things that the bustle's back in style.

Taylor's Partner May Be Sent to Kentucky.

The Indianapolis Sentinel says: "Merrill Moore, Deputy Attorney General, whom it is reported Gov. Durbin has decided to send to Kentucky to personally investigate the shooting of Governor Goebel before the Indiana Governor will give his answer to the demand for the extradition of Taylor and Finley, the Kentucky fugitives, is the law partner of W. S. Taylor, one of the men for whom requisition has been made.

The injustice of appointing Moore to investigate a matter in which his law partner is so deeply interested is being unfavorably commented on by attorneys and others familiar with the facts. Moore's connection with Taylor is known to Gov. Durbin."

Railroad Commission is to Meet.

ANNOUNCEMENT.

We are authorized to announce that H. H. Wilson, of the County of Montgomery, is a candidate for the office of Sheriff of Montgomery County, subject to the will of the people.

LET DUBBIN ANSWER NOW.

Under the above caption the Indianapolis (Ind.) State Sentinel has the following:

Governor Durbin, instead of saving himself from the contempt of all law-abiding, murder-hating citizens through his procrastination, is merely emphasizing the lawlessness of his course. While there never has been a time when an Indiana governor has had the right to violate the constitution by refusing to honor the requisition of the Kentucky executive, the execution which immediately followed the conviction of a very plausible pretext. Now there is absolutely no excuse for protecting the refugees. The question of innocence or guilt is something with which Governor Durbin has no concern. If he really desires to do his plain duty it is enough for him that the most prominent law-abiding citizens of an old and friendly commonwealth have reasons to believe that Taylor and Finley knew something about the conspiracy and have proceeded in the lawful way to secure an investigation. The present course therefore is not only an insult to the people of Kentucky, but is an outrageous misrepresentation of sentiment in Indiana.

It is true when the requisitions were presented. He knew for he is an intelligent man—that it was his duty to honor the requisitions without delay. He knew that public sentiment was overwhelmingly against the anarchistic policy to which some few shysters in the republican party have pledged him. Hence his present delay in the misplaced hope that the people will forget all about the requisitions having been presented. The very opposite result. The same failure of an Indiana official to execute his duty according to the constitution and to discharge his duty to society has been the chief topic of

conversation out in the state during the last ten days. The criticism of broad-minded and conservative republicans outside the ring has been as severe as that of the democrats. Republican papers are rising above the consideration of petty politics and demanding the execution of the laws.

If Governor Durbin has already determined upon his decision—and every one knows that he has—let him make his announcement now.

The State Sentinel does not miss the mark. There is a constitutional policy between States by which no criminal is allowed to take hiding in another State. It is termed a requisition. The only question is this: Who is it that has asked for a citizen in hiding in another State, and if a Governor or another of authority it becomes the duty of the Governor upon whom the requisition is made to turn the refugee over to the authorities from the State from which he has fled. There is no alternative. Governor Durbin must obey the State laws or himself become a subject of remonstrance and impeachment.

Sections 3580 to 3660, inclusive, of the Kentucky Statutes, being a part of the charter of cities of the fourth class (Mt. Sterling is a city of the fourth class) provide for the establishment of "Boards of Education." The substance of these sections are as follows: The City Council may at any time pass an ordinance establishing a Board of Education and appoint the members thereof and such appointees will hold their offices until the next regular election following their appointment. This Board of Education would have entire control of all public schools of the city, both white and colored, and they would be required under the law to maintain schools for both white and colored children who resided in the city. The taxes collected for school purposes would all go into one general fund and all public schools in the city would be maintained out of this fund. The colored people of this city pay taxes on an exceedingly small amount of property as compared with the white people and the effect of the passage of such an ordinance would be to tax the white people to keep up the colored schools and the annual tax rate of 30 cts., which the white people now pay under the present system would have to be nearly doubled in order to meet the new obligation of keeping up the colored schools. Under the present arrangement each race supports its own schools and to every fair minded man this arrangement is eminently proper. During the present city administration great pressure was brought to bear on those in control by the principal and trustees of the colored school in this city to establish the Board of Education above referred to, but these efforts were unsuccessful and it is now reported that in consideration of the votes of the two negroes from the Third Ward for certain Republicans for the various offices of this city the Republican nominees for members of the City Council will, if elected, pass an ordinance establishing the Board of Education and thus require the white people of the city to put up the funds to run the colored school. Much are done is given to this report because the negro, Bean, who is to be one of the councilmen from the Third Ward is a teacher in the colored school in this city and a member of the same element of the negroes who attempted to have the present administration pass such an ordinance. The effect of the passage of such an ordinance would be to entirely nullify the present management of the public schools of the city and put it entirely into the hands of this Republican-Negro alliance. Then if Smithville is to be annexed with

X

It is the duty of every man who would assert that freedom of suffrage guaranteed by the constitution of a liberty-loving people to vote for the Democratic nominees. Insinuating charges, of lack of ability, of a political compact, of extravagance and other like detrimental illusions through a series of anonymously edited Bulletins, and which have been conclusively refuted by a statement to the public of the city's financial condition, by Mayor Baird is a reason why every law and order citizen should be true to the provisions of the Constitution. A free people will scorn to aid in the anarchical attack behind the false face of "Citizens Committee."

its 200 colored voters the domination of this alliance would be perpetual. The establishment of the Board of Education could never be repealed by any subsequent council and the damage done by the election of one Republican City Council could never be repaired. In several cities of the fourth class these Boards of Education have been established and the white taxpayers in those cities have been required to pay for the education of the negro children. No Democratic Council would ever pass such an ordinance. If the Republicans live up to their present reputation for legislation they will do anything in that line. We join upon every white taxpayer of the city a close investigation of this phase of the approaching city election.

The people of Mt. Sterling are Democratic and the voters are Democrats. Should any misfeasance in office occur, should there be extravagance practiced, Democrats who are in the saddle will, within their own lines, make the needed corrections. They would not turn the city affairs over to Republican bosses and politicians who would make any kind of pledges in order to get from without to the within and hold of the city. The taxpayers of Mt. Sterling know how well these test suckers hang on to a pension. In fact, a republican platform is not orthodox without a paragraph relative to the pension system and the pensioned.

WHAT THINK YOU?

President Roosevelt dined with Booker Washington, a southern colored citizen, and the people of the United States are making much ado over the unprecedented action. They are not mindful of the fact that the negro Washington is every whit the equal of the President. It was of the President's own volition, and water never rises above its level.

Kentucky Republicans are making startling charges against local administrations, hoping thereby to divert the minds of the voters from the necessity of electing a Democratic Legislator. Every Democrat, every law-abiding citizen, should vote for Hon. L. S. Greene, nilogs.

ALL WOODS & SONS.

W. W. Wilson, a Republican Councilman, has proved himself attentive and watchful of the public trust, entrusted to him by the citizens of the third ward, but a few Republicans of that ward, actuated by the desire to please a few political bosses, chief ringsters of that party, are not well enough pleased with his conduct to offer him a second term. Two colored men inexperienced in public affairs, are chosen in his place. Are they a part of the citizen's ticket?

POSSIBLE.

We say the annexation of Smithville by a Republican council is possible. The initiative is by petition from those desiring to be annexed. A Republican council could by a majority vote authorize it, which would be submitted to the circuit court for approval; failing there it could be taken before a Republican Court of Appeals. Can it be done? Is it not probable that a Republican circuit Court of Appeals would approve the action of a Republican city council. The people of Mt. Sterling are too wise to take any chances.

A Third Ward Councilman recently said to a republican neighbor very much interested just now, some Republicans started a tale that some stealing was going on and in a moment all of you were trying to get in and have a hand in stealing. George Baird's statement silenced you and No. 8 bulletin is quite true.

Among numerous inaccuracies in the anonymous bulletins industriously circulated through the mails, for which no one is responsible, is the assertion that the city tax rate amounts to \$2.22 1/2 on the hundred dollars. The city tax rate is 75 cents on each hundred dollars. This is the limit fixed by law. It is true we pay 30 cents on the hundred dollars for school purposes, but this was fixed by the people independent of the regular city tax rate, and over which the City Council has no control whatever.

It was the place of the "Citizens Committee," in the absence of a statement of the financial condition of the city, to call on the clerk, ask for an inspection of the books and from knowledge attained make a correct statement for the benefit of the people. The people will have little confidence in the publications found in a bulletin insinuating in its make up. The people want facts such as can be corroborated by records.

The books of the city of Mt. Sterling are easy access and Mr. Jones, Clerk, is anxious to show them, with each account, to any taxpayer of Mt. Sterling, who would call on him.

Another Republican Left.

County Clerk Claud Chinn, of Lexington, notified the official printer not to place the name of H. Clay Wilson on the ballot as candidate for superintendent of county schools on the Republican ticket, pursuant to an injunction granted by the county court to that effect. The reason for the scratching of Mr. Wilson's name is that he does not hold a certificate to teach in the schools of Fayette county nor has he ever passed an examination for the same.

A bench warrant has been issued for the arrest of J. B. Mathews, who was Assistant Secretary of State under Calhoun Powers. Mathews is a witness for the Commonwealth against Powers and has suddenly disappeared. It is said he has left the State. Mathews was wanted to give evidence in rebuttal contradicting a statement by Powers that he did not give Youtsey a key to his office. The Commonwealth has an affidavit from Mathews that Powers admitted to him he had given Youtsey the key.

CATARRH

Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh of the nose as a cold, a simple inflammation of the mucous membrane, and it is, in fact, a complaint, and very dangerous disease, if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and dispiriting, because they do not reach the seat of the trouble. S. S. S. does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. T. Williams, a leading dry goods merchant of Knoxville, S. C., writes: "For years I had a severe case of Catarrh of the nose, which was attended by the disagreeable effects which belong to this disease. It was so painful and made life so miserable that I was obliged to use all the remedies prescribed by leading physicians and suggested by numbers of friends, but without getting any better. I then began to use S. S. S. It had the desired effect, and I am now free from the disease. In my opinion S. S. S. is the only medicine now in use that will effect a permanent cure of Catarrh."

THE WHITE SMITH CO., ATLANTA, GA.

What a splendid type of tireless activity is the one who the pedant describes it as being like a "bridge" from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely is this so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain, builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation as it contains no alcohol, whisky or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.

No Bounties for Soldiers of Spanish American War.

On or about September 29, 1901, a special dispatch was published in several of the leading daily papers in regard to an alleged discovery of some old laws by a Brooklyn lawyer, granting \$84 State and \$102 Federal bounties to soldiers for services in the Spanish-American War, and stating that it would cost the State about \$2,000,000 and the Federal Government about \$3,000,000. It was also alleged that some thousands of cases were now before Attorney-General Knox at Washington for his decision, and that the matter is expected to be settled within the next ten days.

In a circular letter issued by the Auditor of the War Department, he says: "These dispatches are very vague, and so far as the United States is concerned are incorrect and misleading. No such cases are before the Attorney-General of the United States for his action or decision.

Furthermore, no law has ever been passed by Congress granting any bounties whatever to any soldiers for service in the late Spanish-American War of 1898 and 1899. Certain laws were passed giving extra pay to such soldiers in certain cases, in lieu of a full month or a leave of absence. But in nearly all such cases the soldiers who were entitled to such extra pay have already been paid it."

An Unfortunate Preacher.

On an early hour Monday morning of last week the Rev. Eugene Harrison, pastor of the Methodist Episcopal church, South, at Madisonville, Ky., shot and killed a negro named Jim Lewis.

Several times during the night the Rev. Harrison had been disturbed by some one trying to break into his house and had gone down stairs to see what the disturbance was. All had gotten quiet and he returned to bed, only to be awakened some time later by a vigorous attempt to force through the door into a room occupied by Mrs. Holliman, a very old woman.

Again he went down stairs, opened the kitchen door and fired his pistol. It was not known till daylight that he had killed the man. The negro had taken off his shoes. The preacher had recently been sent to the town by the Conference. The verdict of the Coroner's jury was "justifiable homicide."

MAYOR BAIRD TALKS.

Every Statement Smacks the Bul-
letin Makers in the Face.

His term of office began January,
1898. The annual licenses having
been collected and paid over showed
a balance in the treasury of \$6-
943.37. Against this were out-
standing claims as follows:
In favor of Mrs. Addie
Jephson \$2,025.41
Judgment of Mrs. Bridget
Tully 545.10
Compromise claim of C. G.
Thompson and Tina C.
Welch 1,042.82
Repairing of fire engines 2,500.00
New hose purchased 800.00
Outstanding vouchers 1,838.06
Total \$8,701.89

This shows a difference between
assets and liabilities of \$901.48, in-
stead of the enormous sum of nearly
\$10,000.

Mr. Baird also informs the tax-
payers that the tax books for the
year 1901 are in the hands of the
collector and when the taxes of
1901 and the licenses for 1902 have
been paid in, all outstanding vouchers
will be paid and there will be a
balance in the treasury of about
\$2,500. Is not this a better show-
ing than that of 1898?

This in face of the fact that four
years prior to 1898 the tax rate
was 65 cents and our average
has been 53 1/4 cents; that the
city has kept up between 4 and
5 miles of street which was former-
ly cared for by turnpike companies.
During the period of my office we
have had to contend against the
spread of small pox brought here
by a negro from Richmond. This
cost was \$1,553.85. The construction
of two iron bridges, one over
Hinkston on the Spencer pike, and
another over same creek on Queen
street and a steel covering for the
fire cistern cost the city \$845.
Could the people of Mt. Sterling
hope for a better showing than
this?

Cassidy," one of the most desperate
characters in the West, who is be-
lieved to have been implicated in
the robbery of the Great Northern
express train near Wagner, Mont.,
last June, fought his way clear of
two city detectives in Nashville
Sunday and after a thrilling chase
made his escape. In his race for
liberty he utilized a two horse wag-
on team, a horse and buggy and a
riding horse, all forcibly taken,
while two dead bloodhounds mark-
ed the first portion of his trail. The
man threw away a wallet contain-
ing \$1,010 in ten and twenty-dol-
lar bills of the National Bank.

A Fine Time.

Ramsey and Mary Greenwood.
Messrs. Lewis Knox, Miller Ander-

valentine he is mighty apt to be-
come a little scatter in his mind.

postoffice as i noticed the people
safe black and white going in and
comin out with letters and i noticed
the only had one cent stamps on
them, so that put me to studying.
i sed to myself i will go in and see
maybe the mite be something fur-
me or sal, so i went in and knocked
at the door and inquire if there
wer any letter for air or mrs con-
trotter, and the postmaster looked
at mee pretty close then handed out
two or three letters, but edd nothing
but keyeping mee all the time.
sal noticed it and she sed she be-
lieved the think maybe wee are the
chaps that walized up on the ex-
change banks eye brow for a few
of the boys, eny way we opened the
letters hopen to hear from from
sun kinsman or frinde and behold:
there were nothing but little lagging
tickets from the so-called good
citizens of the city. That did not
there individual names for fear the
mite come short if tha were wayed
up separately. the want us to
take the whole load as the fixed it,
but i don't like to charge a battery
i kno nothing a bout. I have bin
hurt be fore by lising to those lit-
tle song and dances on paper. it
won't do go to far fast with out
looking ahead soon. i got caught
a few days ago by not telling mee i

a barrel of good-sound white corn
to feed my rats on thine the winter
and when it come i payed him fur
it and he left so i began to use it
and getting down about the middle
